Full Season Monthly Repeat

AQUA DOC'S Full Season Premium Monthly Treatment Program is a worry free way of controlling nuisance plant growth and maintaining the beauty of your pond on a once a month basis. Our specially trained and licensed aquatic biologists have evaluated your pond and designed this program to fit your needs.

This program is for larger bodies of water that have only a small nutrient level and does not require as much maintenance. Weather and water condition may allow algae and weed growth to occur. Our next monthly visit will correct any nuisance growth.

FOUNTAIN INSPECTED AND RUNNING PROPERLY. Inspected By: *DIA*

Today we performed a thorough inspection on the Lake and found minimum amounts of vegetation in the South Cove and the West Cove. The amounts are very minimal so we performed

a very good application on the Lake to ensure control and we will continue to monitor it each visit.

Thanks
